IMPSPORT 08

# INTRODUCTION & HOW TO ORDER

## Hello, and welcome to the new-look full colour Impsport catalogue for 2008.

Impsport was established in 1981, starting off in a small garage and is now based in an 18,000 square foot factory in Lincoln in the UK. With over 30 staff Impsport is the UK's largest manufacturer of cycling clothing and we also produce clothing for triathlon, running, canoeing, basketball, paintball, surfing and many other sports and businesses.

This year we have expanded our range to include several innovative new designs and ranges. Heading the list of new products is the Racesuit. The exceptionally aerodynamic suit was initially designed especially for the Great Britain Cycling Team, but Impsport have now been granted permission to sell them to clubs and teams in their custom printed design.

Impsport have also launched a new range of clothing for triathlons, developed with help from Pro Triathlete James Parker - the range includes a top, shorts and an all-in-one Tri Suit. Other new products include two new ranges for 2008 - the winter sports range of clothing for bobsleigh, luge and speed skating, and the promotional models clothing.

As well as the new products, we still supply everything a sports event organiser will need for their event from grass roots level to televised elite events. From competitors numbers, marshal bibs, marshal arm bands, warning flags and signs, sponsors banners, presentation sashes, barrier tape right down to the adhesive white finish line tape that can be removed after the event. Impsport is a major supplier for many of Britain's most popular sporting events.

Inside this 48-page catalogue - our biggest yet - you will find everything you need for whatever sport is your passion, including many products that have been used by top national and international athletes.

**I hope you like what you see, and let me wish you happy shopping for 2008!**

**Dan Ellmore**  
Managing Director, Impsport
